

STEPHANIE LEE

INTERACTION
DESIGNER

JUN 2016 - DEC 2016

GOOGLE MOUNTAIN VIEW, CA
MOBILE INTERACTION DESIGNER

Lead design of the architecture for Google Scholar in its transition to Google’s new branding and requirements to work across mobile devices. Integrated Google’s new design language and components. Worked as the sole designer for Google Scholar’s engineering team while consulting with Google’s core UX team.

FEB 2015 - JUN 2016

VERSAL SAN FRANCISCO, CA
PRODUCT DESIGNER

Lead the product design for the interactive online course builder, focusing on the UX of new features, user research, and championing design to the product and engineering teams. Helped design for better user retention and decreased dropoff rates for first time users.

JUN 2013 - SEP 2014

MIT MOBILE EXPERIENCE LAB MILAN, ITALY
INTERACTION DESIGNER & RESEARCHER

DR. FEDERICO CASALEGNO

Ran design innovation workshops and consulted for internationally recognized companies. Generalized in all steps of the design process — ethnographic research, analysis, ideation, prototyping, with a focus on concept development.
Based in central Europe as project lead to run workshops, increase in-person collaboration, and communicate with clients for new projects and proposals.

JAN 2013 - MAY 2014

MIT MEDIA LAB CAMBRIDGE, MA
UX DESIGNER/RESEARCHER

NATAN LINDER
FLUID INTERFACES GROUP

Designed the new interface for the manufacturing project of LuminAR. Researched and designed UX foundations for its emerging education project and envisioned the new system architecture.

SANDRA RICHTER
CHANGING PLACES GROUP

Led design of new mobil app to explore the concept of social cycling in collaboration with Hubway, Boston’s city bike share. Pushed new gamification features as well as a unique UI proposal leading to the recognition of the app interface in The Cycling Affairs publication ’13.

JUN 2013 - AUG 2013

GIRLS WHO CODE DETROIT, MI
TEACHER

Taught computer science to local city high school girls through an immersive summer program. Taught both hard skills—python, html/css, js, web apps/jQuery mobile, arduino/C, and soft skills.
